RE: Format Change for Dufferin Wind Power Project PIC#2/End of Renewable Energy Approvals (REA) Municipal Consultation Period

Dear Sir/Mesdames:

Dufferin Wind Power Inc. has received requests from 2 municipalities to change the format of the upcoming Public Information Centres (PIC) that will be taking place July 24th to July 28th, 2012. I have attached the revised Notice of PIC. The format of the PICs will be a one hour walk-through followed by a 2 hour formal, moderated question and answer period. Going through questions and comments from the public we have put together an expert panel that will be able to address comments on the following topic areas:

- Project Development and Construction;
- Renewable Energy Approvals Process and Permitting;
- Natural Environment;
- Noise;
- Public Health;
- Property Values; and
- Niagara Escarpment view shed impacts (to be addressed at the Mulmur PIC only).

Dufferin Wind Power Inc. is currently preparing a Municipal Comment Response Summary Report based on the comments we have received to date regarding the draft Renewable Energy Approvals Reports. This Report will be distributed to each Municipality when it is completed. As a friendly reminder, Municipal comments, under the Renewable Energy Approvals process, are due on Monday July 23rd, 2012. We look forward to providing responses to your comments for your consideration and receiving further comments from each Municipality.

If you have questions, comments, or concerns please do not hesitate to contact me at 519-438-6192, ext 1341 or by email at rcrump@dillon.ca.
