Re: 476420 3rd Line Pre-Application Consultation Brief

BACKGROUND

An email inquiry was received by staff on July 14, 2023, regarding the above subject property. The applicant expressed a desire to improve the property, which currently operates as a seasonal trailer park in poor condition. The Ministry has identified environmental issues and outstanding items that need to be addressed. The applicant aims to bring the property up to the required standards and create an affordable four-season residential community.

The applicant was directed to submit a Pre-Consultation Application supported by the required documentation for further preliminary review and assessment. The Pre-Consultation Application was received with documents listed below:

- Pre-Consultation Application 476420 3rd Line Chipwoods Park 08/08/2023
- 476420 3rd Line Melancthon Planning Justification Brief
- Applicable fees

During the meeting that was scheduled for October 23rd, the applicant shared additional details regarding the proposal, which are outlined below:

- Seeking a development approval for a land lease community (affordable housing)
- Permanent prefab slab-on-grade units.
- Sewage treatment system that would be assumed by the Township, or through a Responsibility Agreement between the Township and the Owner.

The proposal lacks sufficient details, such as the number of units proposed, road network, and a concept plan, leading staff to recommend the need for additional data to properly evaluate if the proposal meets planning requirements and policy tests.

COMMENTS

Recent amendments introduced through the *More Homes Built Faster Act* presented exemptions to subdivision control and part-lot control under subsections 50 (3) and (5) of the Act, in connection with land lease community homes provided they obtain site plan control approval and the lease of land is for a period of between 21 and 49 years.

This proposal will need to undergo a local OPA, ZBA, and Site Plan, or Part Lot Control application in order to obtain the necessary development approvals, pending feasibility of servicing.

It is required that the applicant demonstrate compliance with all applicable policies and regulations for the site, in addition to proving the feasibility of servicing, through further studies and reports.

Below is the list of applicable policies and regulations that apply to the subject site:

Local

Applicable Official Plan Designations: Rural, Environmental Conservation

Applicable Zonings: <u>General Agricultural</u>, <u>Open Space Conservation</u>,

Open Space Park, Rural Commercial-2

County and Provincial

Rural Lands-Schedule B-Section 4.3;

If Council concurs with the information of this memo, it is recommended that:

- This Staff memo be received;
- and That Council consider the servicing options as proposed to support this development;
- and That Staff direct applicant to provide additional data and further requirements for a complete application.

October 20, 2023

Dear Head of Council:

I am writing to provide details on the 2024 Ontario Municipal Partnership Fund (OMPF).

During this heightened period of economic uncertainty, municipalities need predictability during their annual budget planning. To help provide that predictability, Ontario is announcing the 2024 OMPF allocations now and maintaining the overall structure of the \$500 million program.

The program will continue to be responsive to changing circumstances of individual municipalities through annual data updates and related adjustments. As in prior years, transitional assistance will ensure that in 2024 municipalities in northern Ontario receive at least 90 per cent of their 2023 OMPF allocation while municipalities in southern Ontario receive at least 85 per cent.

Maintaining a close relationship with our municipal partners remains critical as we continue to work together to build a Strong Ontario. That is why our government has continued to increase support for municipalities through the doubling of the Ontario Community Infrastructure Fund (OCIF) and the introduction of the Northern Ontario Resource Development Support (NORDS). We also recently introduced the Building Faster Fund, which will provide up to \$1.2 billion over three years for municipalities that meet or exceed their housing targets, with a portion allocated to small, rural and northern communities to address their unique needs. Our government also announced that we will restore provincial annual base funding for public health units starting in 2024.

The Ministry of Finance's Provincial-Local Finance Division will be providing your municipal treasurers and clerk-treasurers with further details on your 2024 OMPF allocation. Supporting materials are also available on the ministry's web site at ontario.ca/document/2024-ontario-municipal-partnership-fund.

.../cont'd

I look forward to our continued collaboration as we move forward with building a strong future for our province.

Sincerely,

- The Northern and Rural Fiscal Circumstances Grant component will provide \$94 million to support northern and rural municipalities with the more challenging fiscal circumstances.
- Consistent with prior years, Transitional Assistance will ensure that municipalities in southern Ontario receive at least 85 per cent of their 2023 OMPF allocation.

To Our Municipal Clients:

Re: Assessment of Bill 134, Affordable Homes and Good Jobs Act, 2023

On behalf of our many municipal clients, we are writing to inform you of the Ontario Legislature's proposed changes to the *Development Charges Act* (D.C.A.) and the *Planning Act*, under Bill 134 (*Affordable Homes and Good Jobs Act*). These proposed changes are with respect to the definition of an "affordable residential unit" for the purpose of exempting such developments from the payment of development charges (D.C.), community benefits charges (C.B.C.) and parkland dedication. The following comments will be included in our formal response to the Province, which we also intend to present to the Standing Committee on Heritage, Infrastructure and Cultural Policy (Standing Committee) on November 15/16, 2023.

1. Introduction

The exemptions for affordable residential units were included in the *More Homes Built Faster Act* (Bill 23), enacted by the Province on November 28, 2022. Under this legislation, affordable residential units were defined within subsection 4.1 of the D.C.A. and exemptions for D.C., C.B.C. and parkland dedication were provided in respect of this definition. While the legislation was enacted in November 2022, the ability for municipalities to implement the exemptions required the Minister of Municipal Affairs and Housing to publish an "Affordable Residential Units for the Purposes of the Development Charges Act, 1997 Bulletin." This bulletin would inform average market rent and purchase price to be used in determining which developments qualify as affordable residential units. At the time of writing, this bulletin had not been published by the Minister.

The proposed legislation was posted to the Environmental Registry of Ontario on September 28, 2023 (ERO 019-7669). The 30-day comment period closes on October 28, 2023. Bill 134 has received Second Reading in the legislature (October 4, 2023) and has been ordered referred to the Standing Committee.

Proposed Amendments to the D.C.A.

The definition proposed under Bill 134 modifies the affordable residential unit definition by:

- introducing an income-based test for affordable rent and purchase price; and
- increasing the threshold for the market test of affordable rent and purchase price.

The proposed amendment would provide the exemption based on the lesser of the two measures. Moreover, the rules in subsection 4.1 of the D.C.A. are unchanged with respect to:

- the tenant and purchaser transacting the affordable unit being at arm's length;
- the intent of maintaining the affordable residential unit definition for a 25-year period, requiring an agreement with the municipality (which may be registered on title); and
- exemptions for attainable residential units and associated rules (requiring further regulations).

The following table provides a comparison of the current definitions within the D.C.A. and those being proposed in Bill 134 (underlining added for emphasis).

Item	D.C.A. Definition	Bill 134 Definition
Affordable residential unit rented (subsection 4.1 (2), para. 1)	The rent is no greater than 80 per cent of the average market rent, as determined in accordance with subsection (5). 3. Illustration of the Proposed Amendment

The proposed definition of an affordable residential unit is generally consistent with the 2020 Provincial Policy Statement (P.P.S.) and considers both income-based and market-price approaches to derive an affordable housing definition for both rental and ownership housing units. This is in contrast to the current D.C.A. definition implemented through Bill 23, which is solely based on the market-price approach.

The following provides an illustrative example of the two approaches and how the application of the affordable residential unit definitions would differ for rental and ownership housing. This example uses 2022 data for the Kingston regional market area. Note, this example is meant to be illustrative and uses data from the P.P.S. Housing Tables. The source of data to be used by the Province for the Affordable Residential Units bulletin, and the level of data disaggregation (by geography and unit type) has not yet been specified.

We have also provided, in an appendix, the P.P.S. Housing Tables for 2022 that may be of assistance to you in undertaking a similar analysis. The information in the appendix includes household income data for all households and renter households, as well as average resale house prices and rents.

3.1 Rental Housing Example

Applying the proposed affordable residential unit definition under Bill 134 for the Kingston regional market area:

- The average annual household income for renter households in the 60th percentile in 2022 was \$68,900.
- 30% of this annual household income is \$20,670 or \$1,720 per month.
- The average market rent is \$1,390 per month.
- 80% of the average market rent is \$1,120 per month.
- Under the proposed definition, affordable residential units with a rental rate of \$1,390 per month or less would be exempt from D.C.s. This rental threshold is 25% (or \$278/month) higher than the current D.C.A. definition, which would establish this rental threshold at \$1,112 per month.

3.2 Ownership Housing Example

Applying the proposed affordable residential unit definition under Bill 134 for the Kingston regional market area:

- The average annual household income for all households in the 60th percentile in 2022 was \$108,300.
- Annual accommodation costs equal to 30% of this annual household income (\$108,300 x 0.3 /12 = \$2,708) represent the carrying cost per month derived from typical monthly mortgage costs, property taxes, and mortgage insurance costs.^[1] This calculation equates to a purchase price of \$372,500.
- 90% of the average purchase price is \$523,500 (based on an average resale house price of \$581,700).
- 80% of the average purchase price is \$465,360.
- Under the proposed definition, affordable residential units purchased at \$372,500 or less would be exempt from D.C.s. This purchase price threshold is approximately 20% (or \$92,860) lower than under the current D.C.A. definition, which would establish the purchase price at \$465,360.

4. Comments on the Proposed Amendment

In comparison to the current D.C.A. definition of affordable residential units, the following observations are provided:

^[1] Mortgage payments based on a 25-year mortgage at 4.79% interest rate and 5% down payment. Estimated monthly property taxes = 0.125% of house value. Canada Mortgage and Housing Corporation mortgage loan insurance premium = 4.0% of loan amount. It is not yet clear if/to what extent these align with "accommodation costs" to be considered for the purposes of the income-based test proposed in Bill 134.

- The refined definition of affordable residential units presented in Bill 134 aligns with the income-based approach utilized in the 2020 P.P.S. This, in contrast to the current market-based approach, better aligns with how a number of municipalities define affordable developments in their housing strategies. However, as provided in our comments on Bill 23, while it is an admirable goal to create additional affordable housing units, further D.C., C.B.C., and parkland exemptions will continue to provide further financial burdens on municipalities to fund these exemptions.
- Based on the P.P.S. Housing Tables provided in the appendix:
 - The rent at which a residential unit would be considered affordable is higher under the Bill 134 proposal, compared to the current D.C.A. definition. This would imply that more rental units would receive the exemption relative to the wording provided in Bill 23, providing a greater incentive for affordable rental units.
 - Based on the information contained in this data source, the income test appears to be irrelevant for rental units, as market rent is consistently lower than the affordable rent (based on 60th percentile average household income) across all regional market areas.
 - Conversely, the affordability threshold for ownership housing units, exhibited in this data source, would generally appear to be lower when applying the income-based approach. As a result, Bill 134 is anticipated to incentivize purpose-built rental units over ownership housing.
 - Moreover, this would appear to provide exemptions for ownership affordable residential units that are more aligned with household income than market value.
 - It should also be noted that, based on the provincial average in the data tables, average market purchase prices are approximately double the affordable purchase prices. Based on this observation, only very small residential units, such as studio-type condominium units, may be priced at a point where they would qualify for the affordable residential units exemption. This would mean that establishing affordability using averages across all unit types may not help address the problem of "missing middle"[1] housing, which would typically be geared towards families.

https://www.evergreen.ca/downloads/pdfs/2018/What_is_the_Missing_Middle_Evergree n_CUI_s2.pdf

^[1] The "missing middle" describes a range of medium-density housing types between single-detached houses and apartment buildings. This includes a range of multi-unit or clustered housing types compatible in scale with single-family homes that help meet the growing demand for walkable urban living, such as duplexes, triplexes, fourplexes, rowhouses, and townhouses. Source:

- The proposed definition considers local income in addition to market prices.
 While the definition clearly identifies that annual incomes for households within
 the "applicable local municipality" will be used in the income-based test, the local
 municipality does not appear in the average market rent/purchase price
 definition. Concerns about the geographic scope of the bulletin and potential
 implications across local municipalities due to variations in income levels still
 remain.
- The income level is set at the 60th percentile of gross annual income in the applicable local municipality, distinguishing between renter households and all other households. The basis for determination of gross annual income is not provided in the legislation and will be informed by the Minister's bulletin.
- For affordable households, the rent would be established at 30% of income, and purchase price at accommodation costs equal to 30% of income. A definition of accommodation costs is not provided in the legislation and will be informed by the Minister's bulletin. The basis for calculating accommodation costs is unclear, and carrying costs need to reflect representative costs of home ownership, including typical mortgage costs, property taxes, and property insurance, as well as condominium fees, where applicable.
- The basis for market rents and purchase prices will be required. Many municipalities utilize Canada Mortgage and Housing Corporation data for establishing average market rents in affordable housing strategies. As noted earlier, it is unclear from the legislation how the average market rents and purchase prices will be determined.
- As currently written, the legislation is unclear if market rent and purchase price will be determined using overall averages or averages disaggregated by dwelling unit type or size. Establishing average rents and purchase prices using overall averages across all dwelling unit types will provide higher average values than those established by dwelling unit type and size, which would have greater exemption implications for municipalities with a larger amount of high-density development. As noted earlier, this approach would also tend to favour smaller condominium units, which would more likely meet the affordability threshold, in contrast to larger family sized units, which would likely not qualify for D.C. exemptions.
- Subsections 4.1 (5) and (6) of the D.C.A. currently identify the market rent/ purchase price in the year the unit is occupied/sold as identified in the bulletin. This would appear to indicate an annual publication of the bulletin. The proposed definition of the "affordable residential units bulletin" does not imply an annual publication. The timing for publishing the bulletin should be clarified.
- The market test proposed in the definition is increased from 80% of average market rent/purchase price under the D.C.A. currently, to average market rent and 90% of the average market purchase price.

- The D.C.A. defines "rental housing development" for the purposes of the
 mandatory instalment payments in section 26.1 of the D.C.A. and the discounts
 for rental housing development in section 26.2. Affordable residential rental units
 within subsection 4.1 (2) are not specifically defined as rental housing
 development and, therefore, it does not appear that there is a requirement for
 those units to be in a building or structure with four or more units.
- The introduction of the income test for affordable residential units will increase
 municipal administration costs of agreements and the requirement to ensure
 these units remain affordable over a 25-year period. These administrative
 burdens will be cumbersome and will need to be monitored and coordinated by
 both upper-tier and lower-tier municipalities. Further clarification is required with
 respect to:
 - o The parties to the agreement (e.g., developer vs. builder vs. owner);
 - The Minister of Municipal Affairs and Housing establishing standard forms of agreement, as provided under subsection 4.1 (12); and
 - Reporting requirements and onus (i.e., should the municipality reach out to the parties of each agreement or should the parties to the agreement be required to report to the municipality?).

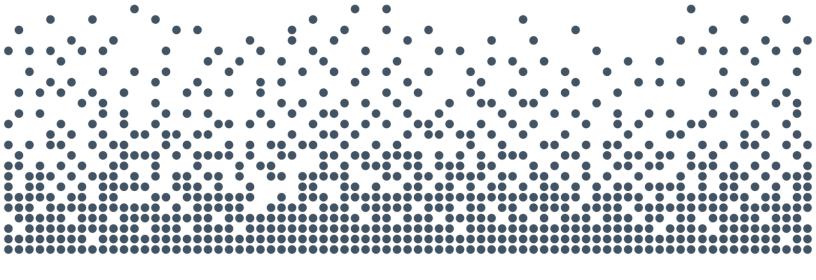

As summarized above, there are several concerns and areas of clarification that Watson will be advancing in our submission through the Environmental Registry of Ontario. Watson will also be seeking an opportunity to speak as a delegation to the Standing Committee to provide our concerns on behalf of our municipal clients.

We will continue to monitor the progress of Bill 134 through the legislature and will continue to keep our clients informed of any changes. If you have any questions, please do not hesitate to contact us.

Yours very truly,

1. In the PPS, a regional market area refers to an area, generally broader than a lower tier municipality, that has a high degree of social and economic interaction. In southern Ontario, the upper or single tier municipality will normally serve as the regional market area. Where a regional market area extends significantly beyond upper or single tier boundaries, it may include a combination of upper, single and/or lower-tier municipalities.

Re: Primrose ES Boundary Review

The board's Planning Department is responsible for monitoring enrollment and accommodation needs for its schools on a regular basis. As part of this process, staff identified increased enrolment pressures at Primrose ES resulting in initiating a Boundary Review Process.

At the October 17, 2023 Finance & Facilities Committee Meeting, Trustees approved the staff recommendation to initiate the Primrose ES Boundary Review. It should be noted that the final approval of the commencement of the Boundary Review will occur at the Board Meeting on November 14, 2023. The Initial Report required an approval from Trustees prior to starting the public process and notifying the school communities in accordance with the Board's Boundary Review policies and procedures.

The Primrose ES Initial Boundary Review Report presented four (4) possible options to relieve enrolment pressure at Primrose ES which include:

Option 1 – Reassign Primrose ES Grade 7&8 students to Centennial Hylands ES

Options 2-4 - Reassign part of Primrose ES JK-8 boundary to Centennial Hylands ES

These options are detailed in the <u>Staff Report</u>. The Boundary Review Staff Committee has recommended Option 2 in the Initial Boundary Review Report. This option reassigns a boundary west of Primrose ES to Centennial Hylands ES.

Timelines for this Boundary Review:

November 14, 2023 – Board meeting. <u>Delegation requests</u> can be made to speak at the meeting.

November 22, 2023 - A **Public Information Session** is scheduled for **November 22, 2023, from 6-8 pm** in the **Gymnasium** at **Primrose ES.** The purpose of the public meeting is for Board staff to share information from the Initial Boundary Review Report, gather feedback and answer any questions. Additional details will be provided in advance of the public meeting.

January 23, 2024 – Finance and Facilities Committee meeting where a Final Staff Recommendation will be presented.

February 13, 2024 – Board meeting where a Final Decision is expected. <u>Delegation requests</u> can be made to speak at the meeting.

Any approved changes are expected to be implemented for the 2024-25 school year.

A copy of the Initial Boundary Review Report, including boundary maps, is available online at <u>Boundary Reviews</u> for viewing. This webpage is an excellent way to keep up to date with the process of the boundary review.

A survey will also be posted on our website to provide input on this Boundary Review Process. Please visit the Primrose Boundary Review page to complete the survey.

Any questions or comments can also be submitted to planning.info@ugdsb.on.ca.

All comments and feedback received during this process will be presented to Trustees in the Final Report for their consideration. Please be advised any feedback received through this process will become part of a public record redacted for any identifying or improper content.

Please note while all emails received during the public process are reviewed by staff, individual responses will not be provided. A FAQ document will be posted on the website which will be updated regularly.

Subject: November is Woman Abuse Prevention Month

Attachments: Township of Melancthon_Wrapped in Courage Invite Package.pdf

Importance: High

Dear Denise,

November is Woman Abuse Prevention Month. I'm writing to request the Township of Melancthon proclaim November 25th as the <u>International Day for the Elimination of Violence Against Women</u>. I've attached a formal request for proclamation, which also includes a proclamation sample. Please note: the number 46 has been highlighted in the proclamation sample as this number may change. The alarming fact that this number is likely to increase is the main reason we reach out to our local municipalities about this initiative: raise awareness to end the cycle of violence and prevent more femicides.

Thank you in advance for your consideration.

Most sincerely,

Kelly

RE: REQUEST FOR PROCLAMATION ON NOVEMBER 1st, 2023

To: Whom It May Concern

We are reaching out on behalf of Family Transition Place (FTP) and the Ontario Association of Interval & Transition Houses (OAITH) to request your participation in and support of the 2023 Wrapped in Courage Campaign focused on ending gender-based violence in our community and beyond.

FTP is a not-for-profit organization that provides vital services and support for survivors of genderbased violence and their children. FTP is a proud agency partner of the 2023 Wrapped in Courage campaign that has been raising awareness of gender-based violence and working to prevent femicide in Ontario since 2013.

This November, during Woman Abuse Prevention Month, we are calling on community leaders to join us in taking action by supporting the Wrapped in Courage campaign and showing their support for gender equality. The theme of this year's Wrapped in Courage Campaign is "Purple is for Everyone"; it takes a community to end gender-based violence.

We request that as leaders of the Township of Melancthon, you consider proclaiming November 25th as the *International Day for the Elimination of Violence Against Women*. A sample proclamation for your consideration is attached.

We thank the Township of Melancthon for considering this request and for your continued support in our work to provide safety and support for survivors of gender-based violence in our community.
